# WHAT'S YOUR STYLE?

## the Vision<sup>®</sup> blind collection

Vision blinds are an innovative window furnishing that feature two layers of translucent and opaque horizontal striped fabric that combine to create a striking modern feel. Our made to measure collection offers you the perfect range of fabrics and colours to help you to create your statement look.

## MODERNISE with motorisation

Vision is a stylish fabric that gently filters & softens daylight whilst also offering you the option of a privacy blind, controlling the light while maintaining the view.

For the ultimate in luxury, you can now motorise your Vision blinds with an innovative new range of battery operated and mains powered motors. Louvolite One Touch<sup>®</sup> makes luxury affordable with motorisation that is accessible to all.

There is no better way to make a contemporary style statement in your home, so choose the Louvolite One Touch<sup>®</sup> motorised range for that extra style and convenience.

## CONTEMPORARY stylish shading

Vision blinds combine the ideal balance of privacy and light control with the fashionable, eye-catching trend of bold stripes and colour blocking.

Easy to operate, a single control is used to slide the opaque and translucent woven stripes past each other. The same operation is used to raise or lower the window blind to any height in the window with ease, in the same way as the classic roller blind.

The front layer moves independently of the back allowing the stripes to glide between each other creating an open and closed effect, with limitless light control.

Sliding the fabric into a closed 'opaque-opaque' position allows full privacy and an impressive block of beautiful fabric at your window, whilst the 'translucent-opaque' position creates a stunning striped statement.

With Vision blinds you will enjoy the very best in quality, manufacture and design, along with the practicality of a low maintenance window blind.

## STYLE AND light control

Creating the ideal balance of light and privacy our blackout Vision fabrics help create darkness where you need it most.

Blackout fabrics are idea for reducing the amount of light entering a room making them perfect for bedrooms and a good nights sleep, they even help reduce noise from outside your windows and insulate your home.

*It's all in the detail*

PLEASE NOTE: Blackout fabric does not create a fully blackout blind because there will be lightstrike at the edge of the blind and between the fabric vanes.
